CWCT Members’ Seminar

Friday 13 June 2008
Central London

Automated facades – integration of building and façade control

PROGRAMME

13.45  Registration

14.00  An introduction to automated facades

14.25  Designing buildings for natural ventilation

14.50  Implementation of automated facades

15.15  Tea

15.35  How do we automate the façade?

16.00  Control of naturally ventilated buildings

16.25  Panel discussion

16.50  Discussion
Automated facades – integration of building and façade control

The control of naturally ventilated buildings implies control of the façade and for maximum benefit, integration of façade control with the building management system. Recent work by CWCT has pulled together the full spectrum of designers, manufacturers and contractors involved in the process. The afternoon will offer an opportunity to discover how an automated façade may be designed, procured and constructed. Delegates will receive a draft copy of CWCT’s report.

REGISTRATION FORM

Name: .......................................................... Title: ..........................................................

Company: ...................................................... Job title: ......................................................

Address: ........................................................ Post code: ......................................................

Tel No: ................................ Fax: ................................ email: ................................

Joining instructions will be emailed approximately 10 days before the meeting together with a PDF copy of the draft report.

£50 +VAT = £58.75 (members) £100 +VAT = £117.50 (non-members)
