Tuesday 30 March 2010
University of Bath

Balancing costs against specification and quality assurance

At a time when budgets are being squeezed and risk avoidance is a high priority, the Spring Members' meeting will address the difficult question of how do we balance cost against acceptable specification and how do we manage the risk of construction.

Themes for the day include costs and real costs, value engineering and risk mitigation through insurance, warranties and quality procedures.

Speakers will include:

Chris Macey, Wintech; Anthony Kirkby, Lakesmere; Graham Evans, AVIVA;
Graham Perrior, NHBC and Tony Willmott, Sandberg
